Order

Adopted: April 17, 2002 Released: April 17, 2002

By the Chief, Public Safety and Private Wireless Division, Wireless Telecommunications Bureau:

I. INTRODUCTION

1. We have before us a request¹ by Winstar Wireless Fiber Corp. (Winstar Wireless Fiber) (debtor-in-possession) and New Winstar Spectrum, LLC (New Winstar Spectrum) for a waiver of certain construction and operation requirements in the Commission's Part 101 rules governing the Fixed Microwave Services (FMS). Winstar Wireless Fiber seeks to assign certain of its common carrier point-to-point FMS licenses and its Digital Electronic Message Service (DEMS) license for Station WHD250, New York, New York to New Winstar Spectrum regardless of the construction status of the facilities authorized under such licenses. For the reasons set forth below, we grant the waiver request, in part, and deny the waiver request, in part.

II. BACKGROUND

A. The Winstar Network

2. Winstar Wireless Fiber is a subsidiary of Winstar Communications (Winstar). Winstar, through Winstar Wireless Fiber and its other subsidiaries, provides facilities-based local and broadband telecommunications services, a substantial portion of which uses fixed wireless technology on a point-to-point basis. Winstar, through it subsidiaries, holds 1768 FMS licenses in various radio services. According to Winstar, its subsidiaries hold 947 licenses in the 38.6 - 39.4 GHz (39 GHz) band and Local Multipoint Distribution Service spectrum auctions. In addition, Winstar Wireless Fiber and other

² Waiver Request at 2.

³ *Id*.

⁴ Winstar Wireless Fiber states that "[a]ll of the auction and RSA licenses held by Winstar subsidiaries are constructed or within their construction deadlines." *Id.* at 4, note 8.

Winstar subsidiaries have 205 common carrier point-to-point FMS licenses for operations within Rectangular Service Areas ('RSA licenses') in the 39 GHz band.⁵ Winstar Wireless Fiber also holds 615 common carrier point-to-point FMS licenses authorizing site-based operations in other bands. Finally, Winstar holds one DEMS license under FCC call sign WHD250, which authorizes operations of a station located on the roof of the former World Trade Center in New York City. According to Winstar Wireless Fiber, this station was constructed and operational but destroyed in the September 11, 2001 terrorist attacks. Winstar Wireless Fiber also holds twelve point-to-point FMS licenses for stations that were either located at the former World Trade Center or that communicated with stations located there. Winstar Wireless Fiber states that these stations were either destroyed or rendered non-operational as a result of the September 11th events.⁶

B. The Bankruptcy Proceeding

3. On April 18, 2001, Winstar and its domestic subsidiaries, including Winstar Wireless Fiber, filed for bankruptcy under Chapter 11 of the U.S. Bankruptcy Code. In May 2001, the Commission approved the pro forma transfer of Winstar's licenses to the debtor-in-possession. On December 18, 2001, IDT Corporation ("IDT") offered to acquire Winstar's core domestic telecommunications assets, including Winstar's 1768 wireless licenses, 616 of which are the non-RSA common carrier point-to-point FMS licenses and the license for DEMS Station WHD250. 8 Winstar and IDT then entered into an Asset Purchase Agreement, under which licenses held by Winstar would be assigned to IDT, through its subsidiary, IDT Winstar Acquisition, Inc. (which has changed its name to Winstar Holdings, LLC ("Winstar Holdings")), a wholly owned subsidiary of IDT. 9 Concurrent with this Asset Purchase Agreement, IDT and Winstar also entered into an Interim Management Agreement pending FCC consent to the assignment of Winstar's licenses. Prior to finalizing the Asset Purchase Agreement, New Winstar Spectrum, a subsidiary of Winstar Holdings, was formed to take assignment of the licenses held by Winstar. On December 19, 2001, the Bankruptcy Court approved the Asset Purchase Agreement and the Interim Management Agreement.¹¹ On January 24, 2002, the Bankruptcy Court entered an order converting the proceeding to Chapter 7.¹² In February 2002, the Commission approved the pro forma transfer of the licenses from the debtor-in-possession to the Chapter 7 trustee in bankruptcy.

C. Waiver Request

4. On January 10, 2002, Winstar Wireless Fiber filed applications to assign 1768 FCC

⁶ *Id.* at 5 and Exhibits A and B. Exhibit B lists thirteen stations, including Station WHD250 and twelve common carrier point-to-point FMS licenses either destroyed or rendered inoperational by the terrorist attacks on the World Trade Center (World Trade Center Stations). The twelve common carrier point-to-point stations are: WLA805, WLA804, WLN622, WLT454, WMK348, WLA811, WLT903, WLU638, WHT458, WLK899, WLU470, and WLK956.

¹²See Order Converting Cases to Chapter 7, Reaffirming Regulatory Transition Process under Asset Sale Order dated December 19, 2001, Shortening Time for, and Approving the Manner of Notice of Meeting of Creditors under Bankruptcy Code Section 341 and Granting Related Relief, In Re Winstar Communications, et. al., No. 01-1430 (EIK) (D. Del. April 18, 2001).

licenses to New Winstar Spectrum, and attached a waiver request concerning 616 of those licenses. Specifically, Winstar Wireless Fiber seeks a waiver of Sections 101.55(a), 101.63(a), 101.65(a) and (b), and 101.305(a) and (d) of the Commission's Rules. Winstar Wireless Fiber's waiver request addresses only 615 common carrier point-to-point FMS licenses and the license for Station WHD250. Winstar Wireless Fiber and New Winstar Spectrum indicate that they are unable to determine the construction and operational status of the facilities authorized under 603 of Winstar's FMS licenses. Winstar contends, however, that Winstar has constructed a significant number, but not all, of these facilities. In this regard, it states that, "[g]iven the rapid deterioration of Winstar's financial situation, its loss of employees, and the sale of these assets . . ., it has been impossible to survey comprehensively the status of all licenses, confirm full construction and report to the FCC in connection with their transfer." Accordingly, Winstar Wireless Fiber seeks a waiver to:

- (1) Assign the DEMS and common carrier point-to-point licenses to New Winstar Spectrum without demonstrating that the licenses are constructed;¹⁷
- (2) Obtain a new eighteen-month construction period for the common carrier point-to-point FMS licenses¹⁸ for New Winstar Spectrum; and,
- (3) Permit New Winstar Spectrum to discontinue operations without the risk of losing the DEMS and Common Carrier Point-to-Point FMS licenses.¹⁹
- 5. Winstar Wireless Fiber contends that grant of the requested waiver for its common carrier point-to-point FMS licenses would preserve continuity of service, promote effective transfer of control and transition to New Winstar Spectrum, and prevent an administrative backlog in the event the Commission were to deny its waiver request and require Winstar Wireless Fiber or its successor-ininterest to re-license the stations. Winstar Wireless Fiber further requests a waiver of Section 101.305 of the Commission's Rules to allow New Winstar Spectrum to retain the thirteen World Trade Center Stations. Winstar Wireless Fiber argues that retention of the World Trade Center Stations is appropriate because their discontinued operations were caused by the destruction of the World Trade Centers in New York City.

¹⁶*Id.* at 9.

 22 Id. at 7, 10, 12 – 13.

¹³ Winstar Wireless Fiber filed FCC Form 603 to assign 796 non-auctioned licenses to New Winstar Spectrum. Included in this request are the common carrier point-to-point licenses and the license for Station WHD250, which total 616 licenses. The Wireless Telecommunications Bureau, Public Safety and Private Wireless Division placed the applications and waiver request on public notice on January 16, 2002. Wireless Telecommunications Bureau Assignment of Authorization and Transfer of Control Applications Accepted for Filing, *Public Notice*, Report Number 1077, Jan. 16, 2002.

¹⁴ Waiver Request at 5 (Note that the other 13 licenses are the World Trade Center license and the 12 stations that communicate with it).

III. DISCUSSION

- 6. A license applicant may obtain a waiver of the Commission's Rules by demonstrating that:
 - (i) the underlying purpose of the rule(s) would not be served or would be frustrated by application to the instant case, and that a grant of the requested waiver would be in the public interest; or
 - (ii) in view of unique or unusual factual circumstances of the instant case, application of the rule(s) would be inequitable, unduly burdensome, or contrary to the public interest, or the applicant has no reasonable alternative.²³

When seeking to deviate from the general rule, an applicant faces a heavy burden.²⁴ In order to obtain a waiver, an applicant must plead with particularity the facts and circumstances which warrant such action.²⁵

A. World Trade Center Licenses

- As discussed above, Winstar's thirteen World Trade Center Stations were either destroyed or rendered inoperable by the September 11th terrorist attacks on the World Trade Center. Unlike the other 603 licenses which are subject to the instant request, Winstar Wireless Fiber has represented that these facilities were timely constructed. As a result, but for the tragic events of September 11th, these stations would be operational. In light of the on-going recovery operation occurring at the former World Trade Center, we recognize that Winstar Wireless Fiber cannot re-construct its facilities at this location at this time. We further note that it is unknown when, or if, such reconstruction of the subject communications facilities will be possible. Accordingly, although Section 101.55(a) of the Commission's Rules generally prohibits the assignment of any license prior to completion of construction of the facility, ²⁶ we find, based on the information before us, that Winstar completed construction of the facility.
- 8. We further find that the current operational status of the World Trade Center stations is the direct result of the destruction of the World Trade Center and the communications facilities by terrorist attacks which constitute a unique and unusual circumstance. Moreover, it appears that under the circumstances presented, Winstar Wireless Fiber has no reasonable alternative except to assign licenses for the World Trade Center Stations to New Winstar Spectrum. Consequently, to the extent necessary, we grant Winstar Wireless Fiber's request for a waiver of Section 101.55(a) of the Commission's Rules.²⁷
- 9. Similarly, we do not believe a waiver of Section 101.63 is applicable with regard to the World Trade Center Stations. Winstar Wireless Fiber requests an extension of time of eighteen months to construct the World Trade Center Station licenses. Section 101.63 of the Commission's Rules requires licensees to build and place their stations in operation within eighteen months of the initial date of license grant.²⁸ We believe that this construction and operation rule is not applicable to the World Trade Center

²⁶ 47 C.F.R. § 101.55(a) (Exceptions to the general rule exist when the assignment of the unconstructed facility is "involuntary due to the licensee's bankruptcy, death or legal disability."

²⁴ See WAIT Radio v. FCC, 418 F. 2d 1153.

²⁵ *Id*.

²⁷ See Appendix A for a listing of the World Trade Center Stations.

²⁸ 47 C.F.R. § 101.63.

Stations because Winstar asserts that it constructed these stations prior to September 11, 2001. Based on such assertion, we find that Winstar satisfied the requirements of Section 101.63 and will not be required to satisfy them again with regard to these stations unless it files an application to modify the stations' facilities.

10. With regard to Sections 101.65(a) and (b) and 101.305(a) and (d) of the Commission's Rules, we find that a waiver for the World Trade Center Stations would not be required until September 11, 2002. First, Section 101.65(a) applies to the voluntarily removal or alteration of the facilities so as to render the station not operational for a period of thirty days or more.²⁹ The destruction of these facilities was not a voluntary act or alteration on the part of the licensee. Accordingly, we find that Section 101.65(a) does not apply to the World Trade Center Stations. Second, Section 101.65(b) of the Commission's Rules requires licensees to cancel the license of any station that has discontinued operations on a permanent basis.³⁰ In this connection, any station which has not operated for one year or more is considered to have been permanently discontinued.³¹ In this matter, Winstar Wireless Fiber indicates that the World Trade Center Stations discontinued operation on September 11, 2001. Thus, if it were envisioned that the World Trade Center Stations would remain non-operational until September 11, 2002, the licensee would be required to cancel the station licenses, file a modification application or request a waiver of the rule no later than August 12, 2002.³² Finally, Section 101.305(a) of the Commission's Rules requires a licensee to notify the Commission for any involuntary discontinuance exceeding forty-eight hours. In light of the recovery operations on-going at the World Trade Center site, we are concerned about whether we have sufficient information before us to determine the appropriate duration of a waiver. For instance, there are a large number of unknown variables that will affect the ability of a licensee to rebuild its facilities at the World Trade Center site. The possible situations that may occur in the future range from licensees never rebuilding facilities at the World Trade Center site or licensees rebuilding these facilities before the end of the one-year discontinuance period. We nonetheless believe that, under the circumstances, the six-month period requested by the applicant is not excessive. Therefore, we will grant the requested waiver of Section 101.65(b) of the Commission's Rules for six months from September 10, 2002. Under this waiver, the licensee will have until March 9, 2003 to make the World Trade Center Stations operational before having to forfeit the stations' licenses for discontinuance of operation.

B. Remaining Licenses

11. There are 603 remaining point-to-point common carrier licenses³³ that are the subject of Winstar Wireless Fiber's waiver request. Winstar Wireless Fiber seeks a waiver of Sections 101.55(a)³⁴ and 101.63(a)³⁵ of the Commission's Rules to enable it to assign unconstructed stations to New Winstar Spectrum and provide New Winstar Spectrum with an additional eighteen months to construct any unconstructed stations. As previously stated, generally Section 101.55(a)(2) of the Commission's Rules prohibits the assignment of any license prior to completion of construction of the facility,³⁶ while Section

³¹ *Id*.

³² 47 C.F.R. § 101.305(d).

³³ The 616 licenses minus the 13 World Trade Center licenses equal 603 licenses (Remaining Licenses). *See* Appendix C.

³⁴ 47 C.F.R. § 101.55(a).

³⁵ 47 C.F.R. § 101.63(a).

³⁶ See para. 7 and note 26.

101.63(a) requires licensees to construct common carrier point-to-point stations within eighteen months of the initial date of grant.³⁷

- 12. Winstar Wireless Fiber contends that the purpose of Sections 101.55(a) and 101.63(a), "to encourage the vigorous use of spectrum and to prevent speculative acquisition of FCC licenses" swould be frustrated by their application in the instant case. It also states that the relief requested is "critical to New Winstar Spectrum's ability to assume control of a viable network and to maintain continuity in the provision of competitive services currently provided by Winstar." Winstar Wireless Fiber continues that "[g]iven the reduction in staff, and fiscal and time constraints Winstar has been operating under . . . there are a number of Point-to-Point CF licenses as to which Winstar Wireless Fiber cannot definitively represent as being constructed." Winstar Wireless Fiber further argues that a grant of a waiver would promote an effective transfer of control and transition to New Winstar Spectrum and prevent an administrative burden for both New Winstar Spectrum and the Commission, in the event the Commission was to deny its waiver request and require Winstar Wireless Fiber or its successor-in-interest to re-license the stations. Winstar Spectrum and the Commission was to deny its waiver request and require Winstar Wireless Fiber or its successor-in-interest to re-license the stations.
- 13. After reviewing the record in this matter, we conclude that Winstar Wireless Fiber has failed to demonstrate that grant of a waiver of Sections 101.55(a) and 101.63(a) is warranted with respect to these Remaining Licenses. Pursuant to Section 101.63(b) of the Commission's Rules, if a licensee fails to timely commence operation, then its license cancels automatically.⁴² In this regard, we note, as indicated in Appendix A hereto, that the construction periods for a substantial number of the authorizations subject to the instant request have already passed. While Winstar Wireless Fiber asserts that it is "unable to represent definitively [that the subject stations are] ... constructed," it is well-settled that a licensee cannot assign a cancelled license. 44 As a result, we believe that the requested relief cannot be granted for stations where the construction period has expired. If the stations were constructed and became operational within the requisite construction periods, then the requested relief is unnecessary because they are not "unconstructed" facilities. On the other hand, if the stations were not constructed and/or did not become operational within the requisite construction periods, then the authorizations for such stations cancelled automatically and there is nothing to be assigned. At this juncture, we do not have sufficient information to determine whether the authorizations for these stations remain in existence because our determination is dependent upon whether the facilities have been constructed.
- 14. We nonetheless note Winstar Wireless Fiber's statement in the Waiver Request that it "believes that a substantial number of the Point-to-Point CF Service licenses ... [are fully constructed]."⁴⁵ In light of this representation and the significant number of licenses at issue, we believe that the most

⁴⁵ Waiver Request at 6.

prudent approach with respect to these licenses is to provide the applicant a further opportunity to submit information demonstrating which, if any, of these facilities have been constructed. Accordingly, we will permit Winstar Wireless Spectrum thirty days from the date of this Order to provide supplemental information as to whether the stations for which the construction period has already expired were constructed within a timely manner. These constructed within a timely manner.

- 15. Against this backdrop, we believe that the requested relief would be ripe only for those stations that are still within their construction period but not yet constructed. As a general matter, we concur with Winstar Wireless Fiber that part of the underlying purpose of Section 101.55(a) of the Commission's rule is to deter speculation and trafficking in licenses. While Winstar Wireless Fiber focuses on facilitating the ability of Winstar Wireless Fiber and New Winstar Spectrum to continue to provide service, it does not address how application of the rule prohibiting the transfer of unconstructed stations here would frustrate or not serve the underlying purpose of the rule. Absent such showing, we can only conclude that Winstar Wireless Fiber has failed to make the requisite showing warranting grant of a waiver. So
- 16. With respect to its request for a waiver of Section 101.63(a) of the Commission's rules,⁵¹ and an 18-month extension of the construction periods, we concur with Winstar Wireless Fiber that part of the underlying purpose of the construction requirement is to ensure the effective use of spectrum. We also note that there are additional purposes underlying construction requirements e.g., recovering licenses quickly from licensees unable to construct.⁵² Here again, we find that Winstar Wireless Fiber and New Winstar Spectrum have failed to demonstrate why application of the construction requirements to the subject stations would frustrate or not serve the underlying purposes of Section 101.63(a). For instance, they do not describe, with particularity, why such stations cannot be constructed within the required timeframe. Instead, they generally assert that they do not know the operational status of the subject stations and grant of the requested relief "will help to ensure the current and long-term viability of the network." We find such general assertions to be insufficient bases upon which to grant the requested waiver of the construction period and the associated consequence of automatic cancellation should the facilities not be constructed within such timeframe.
 - 17. Moreover, we find that Winstar Wireless Fiber and New Winstar Spectrum have failed to

⁴⁸ Again, we note that if the stations have been constructed, then the requested relief with respect to transfer of unconstructed stations is unnecessary. *See* para. 9.

⁴⁶ A random sampling of the information in the Commission's licensing database for these stations did not reveal any extension requests pending prior to the expiration of the construction periods or any notices of completion of construction. Thus, we do not have any independent information upon which to ascertain whether the associated facilities were constructed in a timely manner.

⁴⁷ See Appendix B.

⁴⁹ The Commission has stated the purpose of the prohibition against the transfer of unconstructed stations is to deter speculation and trafficking in licenses. *See* Daniel R. Goodman, Receiver: Dr. Robert Chan, Petition for Waiver of Sections 90.633(c) and 1.1102 of the Commission's Rules, Request for Waiver of Section 90.633(c) of the Commission's Rules by Various 800 MHz SMR Licensees, Request for Waiver of Section 90.609(b) of the Commission's Rules Prohibiting the Transfer and Assignment of Unconstructed Licenses, Request for Extension of License Term of 800 MHz Licensees, *Memorandum Opinion and Order and Order on Reconsideration*, 13 FCC Rcd 21944, 21956 ¶ 18 (1998).

⁵⁰ WAIT Radio v. FCC, 418 F.2d 1153.

⁵¹ 47 C.F.R. § 101.63(a).

⁵² See para. 7 and note 26.

⁵³ Waiver Request at 6-7.

demonstrate that grant of the 18-month extension is warranted under the circumstances presented. Section 1.946(e) of the Commission's Rules, provides, in pertinent part, that "[a]n extension request may be granted if the licensee shows that failure to meet the construction or coverage deadline is due to involuntary loss of site or other causes beyond its control."⁵⁴ The Waiver Request does not include such a showing. Instead, the parties seek the waiver to promote an effective transfer of control and transition to New Winstar Spectrum. However, the Commission's Part 1 rules expressly state that "extension requests will not be granted for failure to meet a construction or coverage deadline because the licensee undergoes a transfer of control or because the licensee intends to assign the authorization."55 Thus, we conclude that the proposed assignment to New Winstar Spectrum, alone, is not a sufficient basis for granting an extension of time to build the facilities. While we recognize that New Winstar Spectrum indicates that it would potentially use the additional time to meet outstanding construction obligations, we conclude that this assertion cannot be a premise for grant of the requested extension. Section 1.946(e)(3) of the Commission's Rules expressly states that "[t]he Commission will not grant extension requests solely to allow a transferee or assignee to complete facilities that the transferor or assignor failed to construct."⁵⁶ Based upon the information provided in the Waiver Request, we find that the completion of the facilities is indeed the prevailing basis for Winstar Wireless Fiber's request.⁵⁷ As a result, based on the plain language of Section 1.946(e)(3), we find that Winstar Wireless Fiber's extension request should not be granted.

- 18. Winstar Wireless Fiber also requests a waiver of Sections 101.65(a) and (b) and 101.305(a) and (d) of the Commission's Rules to enable it to voluntarily remove stations from service for a maximum of six months without the risk of automatically forfeiting the licenses. In contrast to the World Trade Center Stations, the Part 101 Discontinuance of Operation Rules apply to the "Remaining Licenses." Winstar seeks to voluntarily remove these stations from operation. Thus, these licenses are subject to automatic forfeiture upon the voluntary removal or alteration of facilities for a period of thirty days or more. Additionally, if Winstar discontinues operation of these stations for one year or more, it must cancel the licenses because the discontinuance is considered permanent. Finally, Winstar must cancel or modify its licenses for non-use for a consecutive period of twelve months *after construction is completed* if Winstar does not request a waiver. The underlying purpose of Section 101.65(a) is to ensure station operation and alleviate "concerns about the warehousing of spectrum."
- 19. In its request for a waiver of the Part 101 Discontinuance of Operation Rules, Winstar Wireless Fiber states that it and "New Winstar Spectrum submit that the purpose of the operational requirements, *i.e.*, to ensure that spectrum is used vigorously and not warehoused, will not be frustrated by this request." Winstar Wireless Fiber states, however, that "[b]y allowing the companies flexibility in this process, the FCC will ensure that it is carried out deliberately and efficiently, thus helping to

⁶¹ Waiver Request. at 12.

ensure that service continues to be rendered to the public. Given the unique circumstances of this transaction, a prophylactic waiver is appropriate to ensure that critical licenses are not lost due to inadvertent rule violations." Winstar Wireless Fiber seeks six months to undertake "a comprehensive review of the network to evaluate current and future operational needs and objectives." Winstar Wireless Fiber further states that during this process, it and "New Winstar Spectrum will seek to identify any outstanding construction obligations and also to make refinements and adjustments to the network" which "may result in altering or removing facilities so as to take a station or stations out of operation temporarily but for periods lasting 30 days or more." As they go through this process, "New Winstar Spectrum will relinquish licenses that they determine will not be necessary to the network."

- Qperation Rules with respect to the "Remaining Licenses". We disagree with Winstar Wireless Fiber's position that the financial hardship is an unusual or unique circumstance. Both the Commission and the courts have consistently held that the consequences of independent business decisions do not release a licensee from its responsibilities to implement its stations in accordance with the Commission's Rules. ⁶⁷ In addition, Winstar Wireless Fiber's request covers 603 licenses. Winstar Wireless Fiber has not limited its request to a small number of specific stations. Nor has Winstar Wireless Fiber identified any reasons with respect to why discontinuance would be appropriate for each station. Winstar Wireless Fiber seeks a blanket waiver in exchange for general statements to expeditiously return the stations to service and assertions that they are making refinements and adjustments to the network. Moreover, Winstar has not offered any concrete plans demonstrating its committed intent to return the 603 stations to service forthwith. As such Winstar Wireless Fiber has not met the waiver standard with regard to the discontinuation of operation rule. Without more information with respect to each station slated for discontinuance, we are unable to determine whether valid reasons exist for the discontinuance.
- 21. We further conclude that Winstar Wireless Fiber has not shown the public interest will be served by waiving the Commission's Rules as it has requested. Winstar Wireless Fiber states that "[t]he continuation of its service will help to ensure seamless service to key government agencies, among others, and to significantly advance the FCC's objective of achieving competitive markets for local exchange and broadband services, which will serve the public interest." Once again, however, Winstar Wireless Fiber's request lacks specificity for us to weigh all of the relevant facts. Winstar Wireless Fiber does not identify how this waiver request affects service to key government agencies. Nor does Winstar Wireless Fiber explain how removing stations from service for a maximum of six months will ensure the provision of service to key government agencies. Winstar Wireless Fiber asserts that this waiver would "advance FCC's objective of achieving competitive markets," but it does not explain how granting this waiver would achieve those objections. Finally, Winstar Wireless Fiber has not argued how granting a waiver in

⁶⁷ See Associated Information Services Corporation Requests for Declaratory Ruling and Waiver and Extension of the Multiple Address System Construction Provisions of Section 94.51(a) of the Commission's Rules, *Memorandum Opinion and Order and Declaratory Ruling*, 3 FCC Rcd. 5617 (1988) citing P & R Temmer v. FCC, 743 F.2d 918 (D.C. Cir. 1984); See also Texas Two-Way, *Memorandum Opinion and Order*, 98 FCC 2d 1300 (1984), aff'd sub nom. Texas Two-Way, Inc. v. FCC, 762 F.2d 138 (D.C. Cir. 1985) (licensee responsible for delay resulting from interference caused by construction of a building adjacent to the transmitter site because the site selection was an independent business decision.).

⁶⁸ *Id*. at 8.

this case outweighs the public benefit of reassigning the unused spectrum to other parties that will use it immediately to provide service. Clearly, Winstar Wireless Fiber has not satisfied the public interest prong of the waiver standard.

IV. CONCLUSION

22. For the reasons discussed above, we grant in part and deny in part Winstar Wireless Fiber's waiver request. With regard to the thirteen World Trade Center licenses, ⁶⁹ we grant Winstar Wireless Fiber's request for the World Trade Center Stations to remain dark for an additional six months without resulting in the forfeiture of those licenses for permanent discontinuation. With regard to the remaining 603 common carrier point-to-point FMS licenses, we deny Winstar Wireless Fiber's request to transfer unconstructed stations to New Winstar Spectrum, its request for an eighteen-month extension to construct currently unconstructed stations, and its request to remove the stations from service for more than thirty days without the risk of forfeiture of the licenses. Further, except for the World Trade Center stations, Winstar Wireless Fiber has thirty days from the release of this *Order* to demonstrate which of the subject 303 common carrier point-to-point FMS licenses have been constructed in a timely manner. Only those stations which are constructed or have been constructed in a timely manner will be permitted to be assigned to New Winstar Spectrum.

V. ORDERING CLAUSES

- 23. Accordingly, IT IS ORDERED that, pursuant to Section 4(i) and 309 of the Communications Act of 1934, as amended, 47 U.S.C. §§ 154(i), 309, and Sections 1.925 and 101.55(a), 101.63(a), 101.65(a) and (b), and 101.305(a) and (d) of the Commission's Rules, 47 C.F.R. §§ 1.925, 101.55(a), 101.63(a), 101.65(a) and (b), and 101.305(a) and (d), the Request for Waiver filed on January 10, 2002 by Winstar Wireless Fiber (debtor-in-possession) and Winstar Spectrum, LLC IS GRANTED, IN PART, and DENIED, IN PART, to the extent stated herein.
- 24. This action is taken under delegated authority pursuant to Sections 0.131 and 0.331 of the Commission's Rules, 47 C.F.R. §§ 0.131, 0.331.

FEDERAL COMMUNICATIONS COMMISSION

D'wana R. Terry Chief, Public Safety and Private Wireless Division Wireless Telecommunications Bureau
